AGENDA

8:00 AM - CHECK IN

8:30 AM - WELCOME

8:35 AM - CONTRACTING KICK OFF

The FM Diversion project will provide numerous opportunities for businesses of all sizes and capabilities.

A Corps contracting representative will kick off the event with a brief note on the significance of this event in the acquisition planning process.

9:00 AM - FM DIVERSION PROJECT OVERVIEW

The information overview of the FM Diversion project will include a look at the current status of the overall project. The project history will be presented for background information, but the majority of the overview will be on the Locally Preferred Plan (LPP) and its associated feature. Significant features include:

Red River Control Structure, aqueducts, water storage and water staging areas and tie back embankments. Information on the magnitude of the design reaches will also be included.

10:00 AM - BREAK

10:15 AM - LOCAL SPONSOR CONSTRUCTION OPPORTUNITIES

The local sponsors (Cities of Fargo and Moorhead) will discuss the design and construction work being performed by the sponsors. The work being completed by the sponsors include: in town levee work, local drainage considerations and road and bridge designs. The local sponsors will also discuss their procurement strategies and considerations.

11:00 AM - QUESTIONS & ANSWERS
