

On April 29, 2021, Maria Panichelli (Obermayer Rebmann Maxwell & Hippel LLP) will be presenting a webinar titled, “Size and Status Protests: Eligibility, Bases, and Processes.” In today’s competitive government contracting market, small business eligibility gives contractors a huge leg up. But it also creates additional grounds upon which competitors can protest a contractor’s set-aside contract award. Specifically, competitors can challenge a contractor’s eligibility to receive contract awards through the use of size and status protests. In this webinar (after a refresher on the eligibility requirements of the various small business programs), you will learn about these size and status protests. Maria will discuss how these protests are made, the common bases supporting them, and the process that contractors go through – whether asserting or defending – after a protest has been filed.

As a client of ND PTAC, you can attend this webinar at no cost to you. So, if you’re interested in this topic, check out the details below and register today.
