

On July 12-14, 2022, Carrie Ann Williams (Andana Consulting) will be presenting a three-part webinar series titled “Peak Proposal Prowess – A Primer for SF330 Production.” Under the Brooks Act, architecture and engineering services (A-E Services) must be procured through a qualifications-based process for agencies to select the most highly qualified firms – not the lowest price. Since 2004, A-E firms submit their qualifications on the Standard Form 330 (SF330) for federal government agencies (and some state and local agencies). In this three-part training, you will learn about the best practices and the proven process to prepare detailed and responsive SF330s while letting your creativity and brand come through.

As a client of ND PTAC, you can attend this webinar at no cost to you. If you are interested in this subject, check out the details below and register today

Peak Proposal Prowess – A Primer for SF330 Production (3-Part Series)
