Are you ready to test the waters of government contracting? Have you considered diversifying your customer base to include the government as a customer?

This annual government procurement fair will offer workshops where you can learn about local, state, and federal government market sectors. In addition, you will learn how to complete registrations, about available solicitations, how to do business with federal agencies, and more.

Attendees will be provided an educational environment and the ability to network and share their capabilities with key stakeholders.

Even in this global economy, business is still conducted between people. Taking the time to make personal connections and market your firm's capabilities still matters!

Reasonable arrangements for persons with disabilities will be made if requested at least two weeks in advance. Contact Cathy Lindquist at 701-261-0737 or cathy.lindquist@und.edu.
